

# RUNWAY

## TRAVEL HEALTH, MADE EASY.

Runway is a telehealth platform that offers you access to licensed physicians, affordable travel medications, and extensive travel health guidance.

We partnered with Runway to make your trip as smooth as possible. Initiate your travel consult at [go.runwayhealth.com/debbiepham](https://go.runwayhealth.com/debbiepham)

[Visit Runway Health](https://go.runwayhealth.com/debbiepham)

## RUNWAY SOLUTIONS

Get affordable medications for common travel ailments delivered directly to your door, pre-travel:

- Altitude sickness
- Malaria prevention
- Motion sickness
- Sleeplessness
- Traveler's diarrhea

Need something else? A physician can send a prescription to your local pharmacy.

## HOW IT WORKS

### 1. EXPLORE OUR MEDICATIONS.

Not sure what medications you need? Initiate a consult with a US based, licensed physician.

### 2. CONSULT A PHYSICIAN.

Share some details about your travels and health history for online physician review. If medication is part of the treatment plan, our cloud pharmacy will ship prescriptions directly to your door.

### 3. ON JOURNEY, CHAT BASED CARE

Once your prescriptions are approved, we'll ship them directly to your door. Have questions along the way? Your physician is available to answer and advise throughout your travels.
